

Tribal Community Participatory Budgeting Project

What Is Participatory Budgeting? (Also known as 'PB')

✚ PB is Community Collaboration:

Concepts for community improvement projects are created by the people

✚ PB is Community Empowerment:

Project focus, choices & funding are all determined by community vote

✚ PB Processes are Citizen-Controlled From Start To Finish

A Citizen Steering Committee (not a government employee) runs the entire PB process in every city or town that has embraced PB including;
